

Grow your Talent with us!

PROMISING PERSPECTIVES FOR AMBITIOUS
SOFTWARE ENGINEERS

<http://youngculture.rs>

Marco Zoppi
CEO youngculture Group

« As an innovative, strongly-growing software enterprise, our co-workers are the key to our success. We offer a challenging, international working environment that allows our co-workers to demonstrate their talents and know-how daily. Developers collaborate very closely and directly together with our customers. At the same time they are part of a team of highly- educated and experienced colleagues. In this exciting environment youngculture offers ambitious talents the possibility to continuously develop and educate themselves. »

Convincing Reasons for joining
youngculture:

- Challenging projects
- International working environment
- Close collaboration with customers
- Highly-educated and experienced co-workers
- Further education and development possibilities
- Innovative, strongly-growing international enterprise as employer

WHO WE ARE

youngculture – an Aspiring International Software Engineering Enterprise

CUSTOMER QUOTE

«For our technically highly-demanding e-banking project, software engineers in Switzerland and Serbia are collaborating in one team. The success of this collaboration with youngculture as partner during the last three years has confirmed for us that we are headed in the right direction.»

Thomas F.J. Avedik
CEO Crealogix E-Banking

youngculture is an international software engineering enterprise, specialized in development of web-based applications for companies in the most diverse branches. youngculture was founded in 1996, and today has around 80 employees at its headquarters in Zurich, Switzerland, and branches in Belgrade and Nis, Serbia. For numerous international customers, youngculture develops tailored software solutions using state-of-the-art technologies and methods.

Our Service Portfolio

youngculture develops customized software solutions in close collaboration with our customers in the most varied industries. The newest technologies and methods are thereby put to use. The fundamental technologies are Java, .Net, PHP, C++, ColdFusion, Oracle, etc.

A renowned List of Customers

youngculture realizes software developments under mandate of numerous internationally active companies such as Swiss banks, insurance companies, technology and IT firms. Examples include Bank Vontobel AG, Helsana Insurance, Swisscom, Comparis, Zurich Insurance, Crealogix E-Banking solutions and many others.

Serbia as an important Development Location

youngculture Serbia was founded in 2004. Today more than 60 IT specialists work in the two branches in Belgrade and Nis. By the end of 2012 an expansion to more than 100 co-workers is planned.

WHO WE ARE LOOKING FOR

Dedicated and Ambitious Software Engineers

We are looking for dedicated Software Developers for young culture Serbia who are motivated and have the ambition to develop outstanding solutions for our customers. People with the following skills and experience are in our focus:

- University degree in computer science (or equivalent)
- Knowledge in one or more of following technologies and methods: Java, .Net, PHP, C++, ColdFusion, Oracle, etc.
- Verbal and written communication skills in English
- Knowledge of German is considered an asset
- Ability to travel abroad (Zurich, Switzerland)

Our Management Team in Serbia: (From left) Ivan Arandjelovic Senior Software Engineer/Team Manager, Nebjosa Jovic CEO, Mirjana Parpura Djordjevic HR Manager, Drazen Nikolic Senior System Architect/Team Manager, Sanja Tasic Senior Software Engineer/Team Manager, Igor Spasic Senior Software Engineer/Team Manager

Thanks to youngculture I made my first step into the world of professional software engineering, using the most modern technologies and development tools. I constantly acquire new professional skills and experiences while working with important clients and answering to their quality and innovation requirements. I gain knowledge about all aspects of software production and its maintenance and I work in a highly stimulating environment, surrounded by curious, ambitious and amusing people.

Ivan Kun
Senior Software Engineer

I started to work for youngculture in 2007. Since then I was involved in the development and deployment of several large scale and high traffic web applications, as part of a growing team of young professionals. To be part of different and complex web application projects, as well as working directly with clients on a daily base, has substantially increased my technical and business know-how.

Sanja Tasic
Senior Software Engineer

WHAT WE OFFER

A Challenging International Working Environment

youngculture offers young talents and professionals an attractive working environment. You work in a customer-focused working model and profit from possibilities for professional development.

Attractive Working Environment

- Challenging projects for international customers in diverse industries
- Work in small teams with highly-educated co-workers
- Wages and working conditions that match high performance demands
- Long-term employment contracts
- Travel to Switzerland (Training and Customer Contact)
- Working locations in Belgrade (City Center) and Nis (City Center)

Professional Development Possibilities

- Certification options, i.e. Java Certification
- Career options for ambitious co-workers: Junior > Regular > Senior > Team Leader

Customer-focused Working Model

youngculture's success is based on its very customer-focused working model. For our customers, we are more than just a service provider. We thereby work not only for our customers, but above all very closely with them.
